Vervloet is an outstanding reference with more than a century of experience in the field of decorative hardware. Every piece of Vervloet's collection is moulded and cast in the purest bronzes and brasses, then chased and finished by highly qualified craftsmen. The company offers a vast range of possibilities. Thousands of models, result of several generations of master bronze craftsmen.

All the different stages of manufacturing (casting, chiseling, adjusting, polishing, gilding) have been integrated in Vervloet's workshop and are carried out by craftsmen for whom "art" still means something. Our process is in no way to be compared with the chain – worked industrial products. Vervloet pieces produced are real jewels, each one finished by hand.
