COLLECTION OVERVIEW
TED MUEHLING – TORTOISE 2015**

Inspired by the original shapes in nature, Ted Muehling has taken the shell of the majestic giant tortoise as his model for the new Tortoise collection and reinterpreted it again and again as a continuous quotation of a collection of vases and vessels. All the outer surfaces are made from the finest biscuit porcelain, while the interior surfaces appear glazed. The deliberately created contrast between matte and glossy emphasizes the fine appearance of the almost translucent porcelain.
