## Chandelier 3039-8

The Wood Family

Taking Venetian silk paintings as inspiration this chandelier brings this delicacy into the realms of wooden chandeliers.

The frame of the chandelier is made of carved wood with a leaf-gold finish. The hand painted silk shade is illuminated from within to brighten the ornamental painting. Also the elaborated chains are interlaced with bands of silk and the arms are decorated with silken tassels.

With its elegant form this chandelier serves as a wonderful centre piece for bedrooms or elaborate living rooms in an Art Deco or other playful styles.
