Floor lamp 40388-5 "Black Sea"

The Historism Family

This floor lamp stems from a series designed for a governmental residence building of a former Eastern Europe Republic. The style is an amalgam of the classical Lobmeyr Historism seasoned with a pinch of Oriental elements creating a sophisticated lightness to the design contradicting the highly detailed ornamentation.

The fixture is made of brass with extensively refined cast elements and the typical Lobmeyr crystal pendulums and prism of the Historism line.

Design:., Lobmeyr, 1978 ; Historism

Material: Brass, lead-free crystal; Finish: Gold

Special requests: Metal parts in different finishes, bespoke height

Dia.: 50 cm, H.: 195 cm; Weight: 13 kg
