Floor Lamp 40673-9 "Al Khobar"

The Arabic Family

This floor lamp is a wonderful example of our adaption of Islamic motives. On a long and unadorned base sits an elaborate body of a small chandelier as a crown. The lighting is partly on the typical satellites, partly hidden within the body of the item to give a wholly brilliant expression.

The metal parts are from brass and finished in gold, the crystal is hand-polished in lead-free quality. Nice elements are the small bowls which make up the satellites. These are inspired by classic oil burning lamps of oriental style. The whole fixture is crowned by an onion-shaped dome so typical for the Arabic items.
