Wall Sconce 41852-2

The Milano Family

The combination of a simple shape with exquisite decoration gives this wall sconce its special touch. The shape was derived from the typical fixtures for Viennese coffee houses so popular in the 1950ies.

The decoration is taken from a classical chandelier from the Historism period. It consists of a double belt of cast brass ornamentation. In between those bands precious cut crystals are set to enhance the glint of light from the inside.

The metal surface is treated with the unique kings gold finish which gives the fixture a demure brilliance.

Design: Lobmeyr, 1992; Historism

Material: Brass; Finish: Gold

Special requests: Other metal finish possible.

W.: 21 cm, H.: 29 cm; Weight: 2 kg

Lights: 2 x E14; Max. Watt: 120 W
