Chandelier 41866-5 "Hoffmann Residential"

The Hoffmann Family

The Hoffmann Residential line was created with the claiming of the Japanese Market in the early 1980ies. It carries the archetypical Jugendstil décor of Josef Hoffmann into modern ambience. The design is based on the famous chandelier Josef Hoffmann created for the Werkbund Exhibition in Geneva 1914.

With omitting the cap this chandelier fits large rooms or corridors with low ceilings. It can be mounted directly to the ceiling or suspended with rod or chains.
