Wall Sconce 42355-2 "Muscat"

The Arabic Family

This prestigious wall sconce was designed and executed as a sample for a tender for a residence in Oman. This gave our craftsmen again the opportunity to show off their skills in creating this marvellous item.

The body of the fixture is made from brass elements some of which were exclusively cast and refined by hand. The surface is made in the unique king's gold finish which gives it a very cosy glamour.

Most stunning part next to the crystal is the cast crown. Rarely any item of this kind is produced in such a massive and abundant manner.
