Chandelier 42442

The English Glass Arm Family

British glass arm chandeliers are decorated with heavily cut crystal, strongly featuring the bag-and-tent theme.

Only on being presented an image of a chandelier said type we studied this for the first time. French companies mainly supplied this branch of the market so far.

So in combining the aesthetics of the British Glass Arm Chandelier with the delicacy of the Bohemian's we created this magnificent chandelier with completely lead free crystal. So emanates an unassuming grandeur.

Design: Historical, circa 1900; Historism
