## Wall Sconce 42472-3 "Megaron Spiral"

The Lobmeyr Worldwide Family

This wall bracket was made to match the magnificent Megaron Spiral Chandelier that was commissioned for the Megaron of Music Concert Hall in Athens.

On a back plate of nickel-plated brass sit delicate chains of individually linked crystal. Covering this column of crystal the namesake spiral element is mounted. This is made of two double bars of brass which are precisely bent. Between those curved bars the crystal rods are set and fixed with small cotter pins and secured with wires.

A demanding task was to transfer the monumental design of the original spiral into such a fine scale.

Design: Lobmeyr, 2010; Modern

Material: Brass, hand cut crystal; Finish: Polished

Special requests: Left and right version possible

W.: 22 cm, H.: 50 cm; Weight: 3 kg

Lights: 3 x E14; Max. Wattage: 180 W
