## Pendant Lamp 5234-4 - Powolny

The Art Deco Family

In the early 20<sup>th</sup> century we acquired the whole archives of a Dutch company enabling us to manufacture those pieces in the most authentic fashion.

The individual parts such as arms or the central column are cast from brass and skilfully polished by craftsmen.

Usually an antique finish is applied which gives them their classical and rustic affection and makes them very sought after for cottages or churches. Never the less a shiny brass polish lets them blend into modern architecture perfectly.
