Chandelier 6343-8+1 Grimm

The Viennese Coffee House Family

The most outstanding element of this item is the central column made from a massive brass pipe. This is then milled to create vertical undercuts in a regular pattern around the central body thus touching up the simple geometry. But the true significance lies in the valuable crystals used for the crest to embrace the lower portion. These crystals are large diamond-shaped elements in highest hand-cutting quality. With its small size this chandelier is a perfect tool to enrich small rooms or highlight separate areas of a large one.

This precious little chandelier was designed for one Mr. Grimm. Unfortunately it was not passed down whether he had a brother.

Design: Hans Harald Rath, 1967; Modern
Material: Brass, lead-free crystal; Finish: Polished
Special requests: Other finish of central column

Dia.: 38 cm, H.: 54 cm; Weight: 17 kg
Lights: 8 E14, 1 E27; Max. Watt.: 540 W
