## Flower Vase BV60 IV size with chinoise painting

design: Leonid Rath 2009

The 18th century's fascination for China has been manifested in European arts into the refined fashion of Chinoiserie. We would be glad to see today's China developing in direction of the ideal, which has been model for this style. A peaceful empire, whose numerous inhabitants were supposed to be lettered and philosophically educated down to the lowest social ranks.

The classic Lobmeyr fish bowl vases are painted in finest black stain (Schwarzlot) technique und fired. Geisha, stargazer and flag bearer are the three motives inspired by traditional patterns.
