

CONTAINERS AND BOWLS – BOX WITH LID

White glazed - lid biscuit

Design: Konstantin Grcic, 2001

Decor: Konstantin Grcic, 1999

diameter 15 cm · product no. 10.146

Despite Konstantin Grcic's admiration for high-tech mass production, again and again he chooses to pay a visit to the masters' workshops at the manufactory. The keen eye of the award-winning industrial designer enhances the repertoire with surprising designs like this 15-centimeter long, asymmetrical box. The white-glazed cylinder resembling a stack of plates towards the top third is truly something out of the ordinary. A non-glazed porcelain biscuit lid rests on this.
