

CONTAINERS AND BOWLS – MUSSEL SPOON

*White, bisque exterior / glazed interior*

Design: Ted Muehling, 2000

---

*length 10 cm · product no. 10.771*

---

This gently curving shell by American designer Ted Muehling shows that a spoon can also look very different. Glazed on the inside and with matte bisque porcelain on the outside, the purist form of this eleven-centimetre-long shell spoon highlights the delicacy of the multifaceted material. And those who have concerns about using it need not worry: It is a bit like eating oysters.
