

CONTAINERS AND BOWLS – DISH

Lotos, Sirius Light Blue Fond

Design: Wolfgang von Wersin, 1942

diameter 18 cm · product no. 12.196

Is it a plate? A dish? An ashtray? Whatever your requirement, Wolfgang von Wersin's design from 1973 is ready to serve. After being manufactured by hand in the turnery, "Sirius" is given its identity: a 24-carat pure gold star, which is hand-painted onto it and, after firing, polished with an agate burnisher. The fond decoration is not sprayed on, but – keeping with old tradition – dabbed on using a small sponge.
