

## SPOONS – SPOON

*Korb, white glazed*

---

*length 12 cm · product no. 07.267*

---

Anyone who wanted to be en vogue with their tableware in the 18th century could not skimp on spoons - whether glazed or unglazed. A wide range of desserts, including novel creations, made protagonists such as this shell-like spoon from the “Korb” series indispensable. Now, the small utensil with the legendary wave decoration has long been one of the Manufactory’s classics and can be used to serve preserves, mustard, or homemade chutneys.
