

SPOONS – SPOON (FOR MUSTARD-POT)

Rococo, white glazed

length 12 cm · product no. 14.583

Be it Old German, Silesian, with figs or spicy hot chilli – it seems there were never so many different types of mustard as today. But naturally, every flavour needs a proper presentation on the table. A full grain mustard, for example, would not be out of place in a richly decorated Rococo bowl. Together with this 12-centimetre-long spoon with delicate relief work, it forms a stylish ensemble. Indeed, we must also have a feast for the eyes.
