

TOBACCO – DRUM

Black - yellow

height 7 cm · product no. 12.036

Admittedly, everyone is looking to beat the advertising drum these days – whether private individual, politician, football coach or award-winning chef – which is why the manufactory's workshops produce these small, handmade drums in a broad spectrum of colours: black and yellow with golden cords could, for instance, lead the fanfare parade of the German coalition parties, or even that of the eleven players of Dortmund Football Club under the management of Jürgen Klopp. However, those who have not yet decided can choose the unpainted variation in pure white to begin with.
