

BAVARIAN LIONS – LION

White-blue, hand painted

Design: Dominikus Auliczek, approx. 1767

height 12 cm · product no. o2.668

Dominikus Auliczek, who succeeded Bustelli as master sculptor at the Manufactory from 1763, attached particular importance to the monumentality of his figures. Coming from the field of large-scale sculpture, his designs are not only larger in terms of size, but are also conceived “in a grand style”. Their real dimensions are difficult to estimate from photos alone. Thus this lion too, sitting on a terrace base, seems much more majestic than its modest 12 centimetres would actually suggest.
