

CATS – LITTLE CAT

Handpainted

Design: Luise Terletzki-Scherf, 1933

height 4 cm · product no. 01.692

Obviously, any litter is usually going to have several little kittens in it. As such, the comprehensive work of animal-lover and artist, Luise Terletzki-Scherf, also contains quite a number of different variations of kittens. White with blue eyes, with green eyes, playful tigers or sleeping kitty cats. Along with a large number of her temperamental brothers and sisters, this four-centimetre tall, handpainted figurine of a young cat was created in 1933. The bright green eyes are her trademark.
