

RABBIT – HARE

Underglazed Handpainted, Version I

Design: August Göhning, 1930

height 13 cm · product no. 01.938

A watchful animal that August Göhning designed in 1943 for the master workshops of the manufactory. Its body is youthfully delicate, its facial expression is severe, but only the soft pink coloured and accentuated underglaze painting issues the charming long eared creature with a realistic countenance. The expert animal modeller has once again demonstrated his well trained eye and his masterly skills with this hare.
