

PUTTI – WHITE – FLORA (SPRING) ON PEDESTAL

*Ivory, glazed*

Design: Franz Anton Bustelli, 1755/57

---

*height 17 cm · product no. 01.011*

---

As goddess of flowers and the personification of spring, Flora symbolises all the wonderful vegetarian delicacies that her season provides. In Franz Anton Bustelli's sculpture of 1755-7, the goddess of youth is adorned with plenty of flowers. As well as the bouquet in her hand, there are numerous freely sculpted flowers in the folds of her loincloth.
