

CHAMPAGNE BEAKERS – CONCAVE CUP

White, glazed, with insect

Design: Ted Muehling, 2006

height 9 cm · product no. 09.694

We generally try to keep approaching insects away from very special drinks. That goes both for a delicious ginger ale in a pub garden and champagne in your own gazebo. In contrast, the little fly on this thin concave champagne cup by Ted Muehling is delightful. It is hand-painted in the Manufactory's master workshops on the glazed porcelain, which is just two millimetres thick.
