

CHAMPAGNE BEAKERS – CONCAVE CUP

White, exterior biscuit/ interior glazed

Design: Ted Muehling, 2000

height 9 cm · product no. 09.695

Naturally, you can drink champagne from a glass. But how much more enjoyable it is to put a cup to your lips made of just two-millimetre-thick bisque porcelain! Inside, a Pol Roger or Bollinger pearls on the glazed surface, outside the cup is satin-finished. Ted Muehling designed this simple, nine-centimetre-tall concave cup. And as the award-winning American designer knows that drinking champagne alone is not much fun, he conceived a matching convex cup.
