

TABLE FLOWERS – STAR FLOWER

Handpainted

Design: Conrad Linck, approx. 1770

diameter 7 cm · product no. 18.665

Counted among some of the most important designs drafted for the manufactory by sculptor Franz Conrad Linck are the gorgeous chandeliers decorated with flower garlands. The cherry blossoms hang closely together alongside magnolias, carnations, cactus flowers—each of these sometimes mere thimble-sized blossoms is a hand-worked masterpiece worthy of our attention. And thus, in 2002, it was decided in the manufactory studios to also produce blossoms like this freehand-crafted starflower as table decoration.
