

TABLE FLOWERS – CHRYSANTHEMUM

White glazed with box, limited edition of 25

Design: 2009

diameter 12 cm · product no. 19.173

How many petals do you think this chrysanthemum has? 89? 172 maybe? Some 300 petals make up this gem and each and every one of them is made individually and shaped by hand. This requires time and, of course, a lot of patience. For the craftspeople in the embossing studio, who are truly masters of their art, it appears as if shaping this kind of 12-centimeter long leaf is mere routine. But the reality is that each table flower is a new challenge. Limited to 25, each unique piece rests on velvet in a beautiful, black wooden case.
