

ARKANUM – CUP

Lotos, white, glazed, hand painted

Decor: Khashayar Naimanan, 2011

product no. 19.959

It is standard practice among connoisseurs to initially inspect the brand name on the bottom side of the porcelain. This is not necessary in the case of Khashayar Naimanan's Arkanum. The Nymphenburg signet is resplendent very visibly in majestic grey on the base of the cup. A glance at the lower side of the Arkanum porcelain is still rewarding nevertheless. This is because the British product designer applied the precious floral decoration that was painted freely by hand in black and platinum.
