

LOTOS – BOWL ROUND

Lotus, white, glazed, hand painted

Decor: Sebastian Menschhorn, 2011

diameter 22 cm · product no. 19.745

The successful collaboration of Wolfgang von Wersin and Nymphenburg between 1920 and 1960 produced some of the most successful table services the workshop still produces today. This means that creating a new child for a classic such as Lotus is always a challenge, even for experienced designers. It is something Vienna designer Sebastian Menschhorn has recently achieved with flying colours. He has added a stylised floral “tattoo” in dark purple to the glistening white porcelain with its platinum trim.
